PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Korsakov Petroleum Products Storage Pervaya Pad is located 5 kilometers (km) north of the center of Korsakov (Figure 1).

It is probably utilized for general storage rather than petroleum storage since there is no evidence of POL tanks or open storage.

This installation covers approximately 230 acres and contains an administration building, a barracks, 10 quarters-type housing units, 19 storage buildings, 4 unrevetted explosives storage buildings, a vehicle shed, and 29 support

buildings (Figures 2 and 3).

The installation was covered by KEY-HOLE missions of interpretable quality from [REDACTED] Comparative analysis indicates that the explosives storage area and 4 storage buildings were constructed prior to [REDACTED] The remaining buildings were constructed by [REDACTED] The overall level of activity during the period observed was light.

DESCRIPTION OF INSTALLATION

Railroad Service

A spur from the Korsakov-Yuzhno Sakhalinsk rail line possibly serves general storage area E2.

Road Service

Secondary, probably all-weather roads interconnect the areas and connect with the Korsakov-Yuzhno Sakhalinsk highway.

Administration and Troop Housing Area

Area D contains an administration building, a barracks, 10 quarters-type housing units, and 7 support buildings.

General Storage Areas

Area E1 is a probably secured area containing 5 storage buildings and 7 support build-

ings surrounded by a firebreak.

Area E2 contains 14 storage buildings (one under construction) and 10 support buildings partially surrounded by a firebreak.

Ammunition Storage Area

Area F is a probably secured area containing 4 unrevetted explosives storage buildings surrounded by a firebreak.

Other Buildings

There are 4 additional support buildings within the installation.

Equipment Storage/Maintenance Area

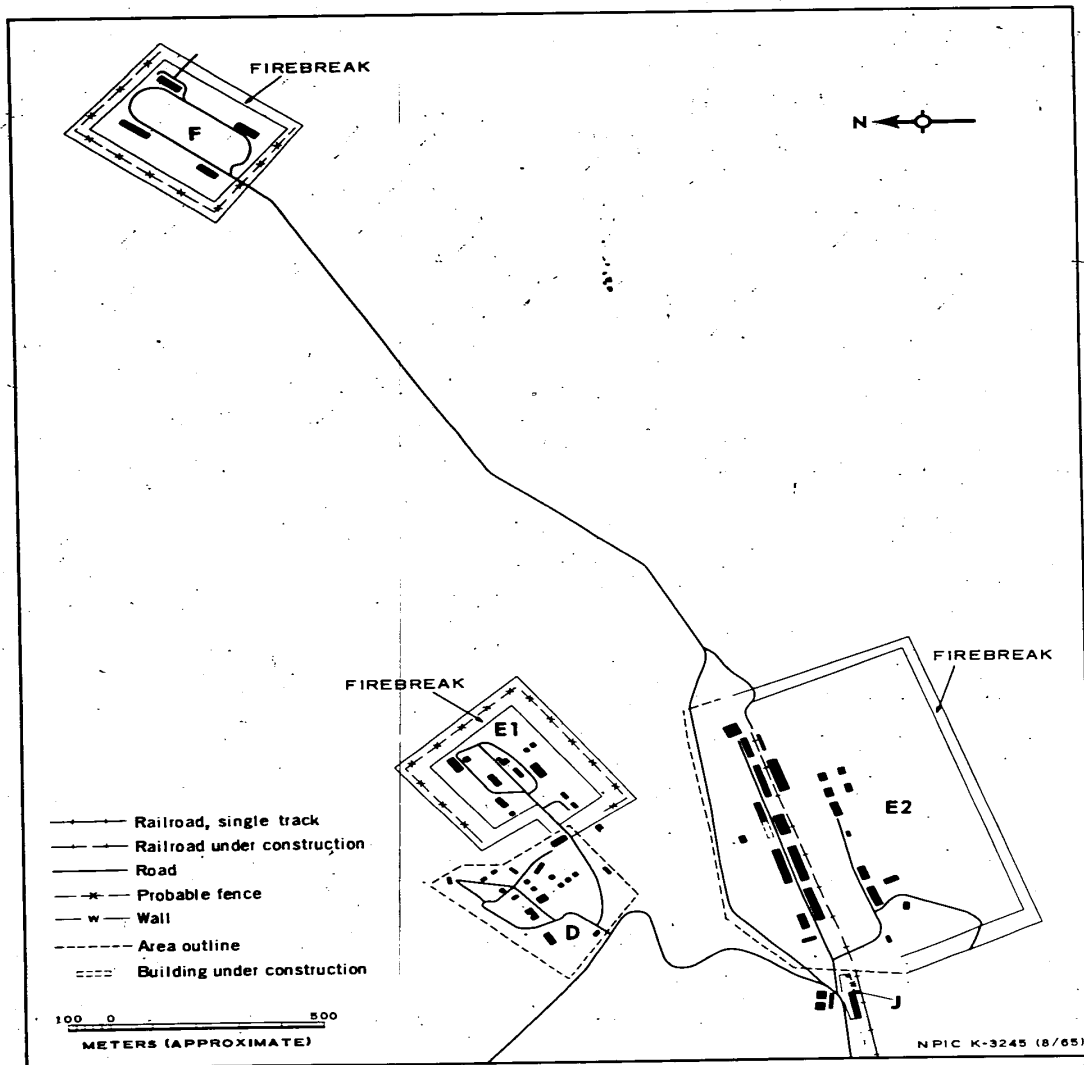

Area J contains a 180- by 20-foot vehicle shed and a support building within a walled compound.
